mooksy

WHITEPAPER ⌄

HOME – Welcome to Mooksy's Farm

➤ "Milk the Blockchain. Moo the Moon!"

➤ Welcome to the funniest — and most profitable — farm in Web3.

➤ Intro Text:

Thought there was no humor on the blockchain?
Meet Mooksy —The first cow in crypto that doesn't produce milk… it produces tokens.

Mooksy isn't just another meme coin.It's a farm-themed game, a living NFT universe, a launchpad lab, and most importantly, a community-driven story.

Here's what you'll do:

Choose the best way to engage with Mooksy's farm-themed Web3 project.

Traditional Farming

Focus on physical labor and tangible products

Web3 Farming

Focus on digital assets and community

➤ Connect your wallet

➤ Mint your own baby Mooksy NFT

➤ Feed it, 💧 hydrate it

➤ Milk it for real rewards

• And become part of the blockchain's funniest profit machine

This isn't just a "play-to-earn" system —It's a full-blown staking economy, a social DAO, and a metaverse-in-the-making.

? What is Mooksy?

Overview:Mooksy is a Meme + DeFi + GameFi protocol born in the decentralized farming universe — and the pioneer of on-chain humor.
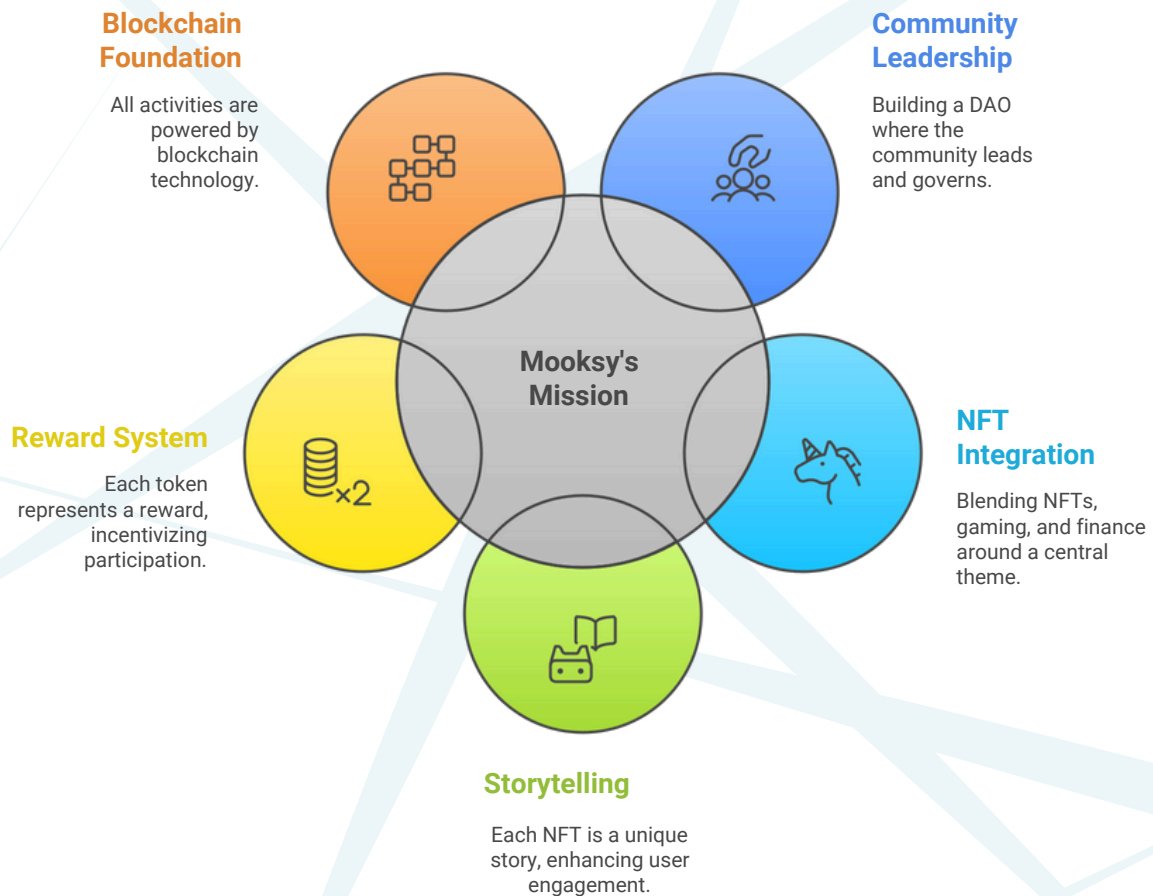

Our Mission:

➤ To make you laugh while you earn

➤ To build a DAO where the community leads

➤ To blend NFTs, gaming, and finance around one adorable cow

Each Mooksy NFT is not just a cow — it's a story.Each drop of milk isn't just a token — it's a reward .

With Mooksy, you laugh, stake, vote, farm, and grow.All powered by the blockchain.

Mooksy's Vision

Blockchain Foundation
All activities are powered by blockchain technology.

Community Leadership
Building a DAO where the community leads and governs.

Reward System
Each token represents a reward, incentivizing participation.

Mooksy's Mission

NFT Integration
Blending NFTs, gaming, and finance around a central theme.

Storytelling
Each NFT is a unique story, enhancing user engagement.

Milk & Stake
"Stake the milk, feed the chain."
At the heart of the Mooksy ecosystem lies a powerful farm economy.Everyone who stakes $MOOKSY tokens gradually produces $MILK.

$MILK Use Cases:
- ⯈ Feeding farm animals
- ⯈ Buying and upgrading NFTs
- ⯈ Gaining extra voting power in the DAO
- ⯈ Purchasing in-game items from the marketplace

⧗ The longer you stake, the more you produce. Just like a real cow: the better you care, the more it gives.

👑 Barn DAO – The Herd Governs
"The community decides. Mooksy delivers."

Council to help shape the project.

Voting topics include:
- ⯈ New partnerships
- ⯈ Which projects get listed on the Launchpad
- ⯈ Meme contests & NFT collections
- ⯈ Game update proposals

Mooksy is governed by a DAO.All holders of $MOOKSY and NFTs can participate in the Barn

We're bringing democracy to the blockchain.MemeFi works when the herd leads.

Mooksy's Community Voting Topics

New Partnerships
Decisions on forming new alliances

Launchpad Projects
Selection of projects for the Launchpad

Meme Contests & NFTs
Engagement through meme contests and NFT collections

Game Update Proposals
Suggestions for game updates and improvements

🐄 Mooksy NFTs (Mooksy Herds)

"Each cow is a character. Each character is an economy."

5,000 unique Mooksy NFTs have been minted —From Samurai Mooksy to DJ Mooksy to Alien Mooksy, each is functional and collectible.

🐮 NFT Holder Benefits:

➤ Unique in-game abilities
➤ Voting rights in the DAO
➤ Access to airdrops & exclusive events
➤ Passive income through $MILK staking

They're visually fun, economically powerful.

🎮 Farm Game – Live It. Play It. Moo It.

"Raise your baby Mooksy, milk it, stake it, earn."

A browser-based play-to-earn simulation where each player manages their own Web3 farm.

🕹️ Gameplay Loop:

1. Mint a baby Mooksy NFT
2. Feed and hydrate it
3. As it grows, milk output increases
4. Milk daily and earn $MILK tokens
5. Expand your farm and complete

It's a blend of fun gameplay and real blockchain economics.
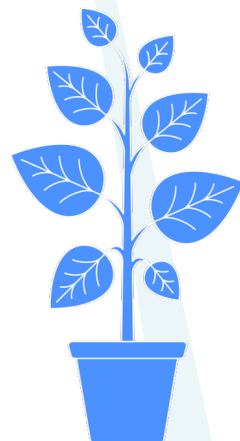

Growing Your Mooksy Farm

Mint NFT	Feed & Hydrate	Increase Milk Output	Earn $MILK Tokens	Expand Farm

🧠 MooLabs – Meme Coin Launchpad
"The next big memes are born in Mooksy's barn."
Meme projects selected by the DAO are launched through MooLabs, Mooksy's community-backed launchpad.

🚀 Launchpad Features:
- $MOOKSY stakers get whitelist access
- Community vets projects before investing
- Launchpad revenue strengthens the DAO treasury

Enter early. Exit with milk.

📊 MooDex – Meme Token DEX & Analytics
"On-chain clarity. For meme coins only."
A DEX and analytics hub built specifically for meme tokens.

📈 Features:
- Real-time top meme token listings
- Volume, liquidity, volatility charts
- Fee discounts for $MOOKSY stakers
- "Most moo-ed tokens" ranked by the community

Where memes meet market intelligence.

Mooksy's Meme Token Features
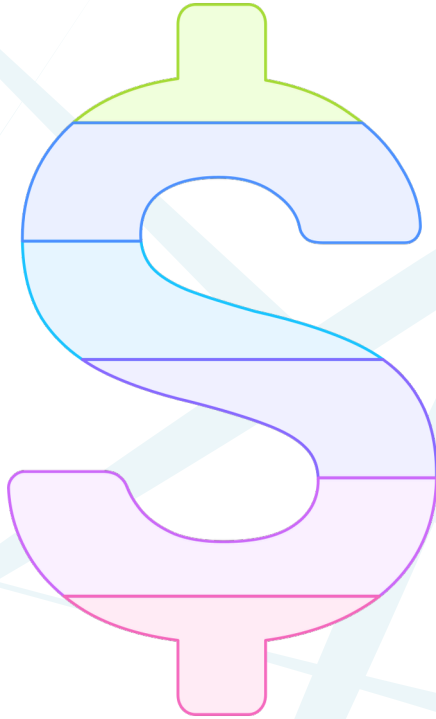

Real-time Listings
Provides up-to-date meme token data

Volume Charts
Displays trading volume trends

Liquidity Charts
Shows market liquidity levels

Volatility Charts
Tracks market volatility

Fee Discounts
Offers reduced fees for $MOOKSY stakers

Community Rankings
Ranks tokens based on community votes

🧬 MilkChain – Layer 2 Network
"Fast. Cheap. Flows like milk."
Mooksy runs on its own custom Layer 2 chain built for efficiency and scale.

🧪 Highlights:
- EIP-4844 rollup-ready tech
- Near-instant staking, gaming & NFT interactions
- Lower gas fees
- A dedicated chain just for the Mooksy ecosystem

FarmFi won't get stuck in traffic again.

🖼️ MooMint – AI-Powered NFT Creator
"You imagine it, AI draws it, blockchain confirms it."
Want to create your own Mooksy-style NFT?MooMint lets you design, generate, and mint fully custom characters using AI.

🎨 Use Cases:
- Generate memes, cartoons, avatars
- Mint on-chain as collectible NFTs
- Use in-game or as part of your herd
- Sell to others, stake them, earn $MILK

Democratizing NFTs through creativity and utility.

🏛️ CowBank – NFT-Backed Lending
"Your NFTs aren't just cute — they're collateral."
Use your Mooksy NFTs as collateral to borrow funds without selling your assets.

CowBank - NFT-Backed Lending

How It Works:

Use your Mooksy NFTs as collateral to borrow funds without selling your assets.
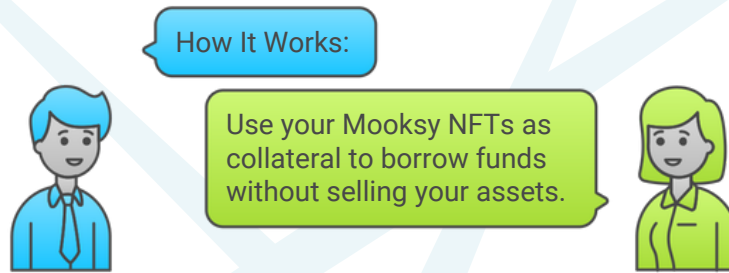

🏛 How It Works:

- Loans are based on NFT value
- Risk score calculated by karma level, staking, and activity
- Overcollateralized loans protect both borrower and protocol

Turn idle cows into active capital.

🔐 MooGuard – Rug Detection & Trust Score

"Should you ape in? Mooksy knows."

MooGuard evaluates new meme projects using a blend of analytics and community input to assign a MooScore (1–10).

🔍 Detection System:
- Scans smart contract data
- Reviews dev wallet behavior, liquidity locks, tokenomics
- Includes community voting
- "Mooksy Approved" badge for safe projects

A fun but serious layer of protection for meme degens.

🎯 FINAL WORD:

Mooksy is more than a meme coin:

✅ A full-on GameFi experience

✅ A thriving NFT ecosystem

✅ A community-led DAO

✅ A sustainable DeFi farm

✅ A playful but powerful Web3 lab

"This cow is funny, but the gains are serious."

Mooksy's Ecosystem

Mooksy
The central meme coin

GameFi
Interactive gaming experience

NFT Ecosystem
Unique digital assets

DAO
Community-led governance

DeFi Farm
Sustainable financial platform
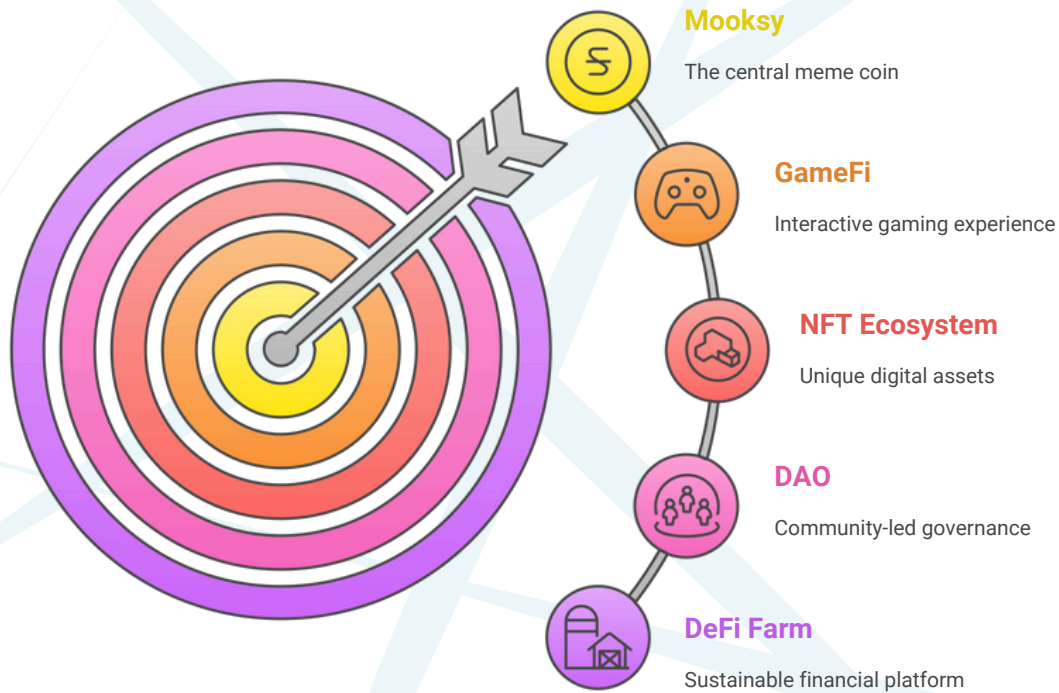

💰 $MOOKSY Tokenomics

Total Supply: 1,000,000,000,000 $MOOKSY
Mooksy is designed with a balanced, long-term token economy that fuels farming,
community growth, DAO governance, and meme-powered expansion.

📊 Visual Allocation (for chart rendering)

🟡 ICO (Sale Rounds)   30%
💧 Liquidity & Staking   20%
👑 DAO Treasury   15%
🔨 Team & Devs   12%
👷 Community & Airdrop   10%
🤝 Partnerships & Exchanges   8%
🎮 Game Rewards   5%
🔥 Strategic Reserve / Burn   Up to 5%

Token Allocation

Allocation Purpose	Percentage
ICO (Sale Rounds)	30%
Liquidity & Staking	20%
DAO Treasury	15%

Community & Airdrop	10%
Partnerships & Exchanges	8%
Game Rewards	5%
Strategic Reserve / Burn	Up to 5%

🧠 Token Utility: What Can You Do with $MOOKSY?
- 🥛 Stake it → Earn $MILK tokens over time
- 🛒 Spend it → Buy NFTs, feed, upgrades, market items
- 🗳 Vote with it → Participate in DAO decisions
- 🛟 Invest with it → Access Launchpad projects via MooLabs
- 🎮 Play with it → Boost gameplay, unlock rewards

MOOKSY Token Utility Pyramid

Play
Invest
Vote
Spend
Stake
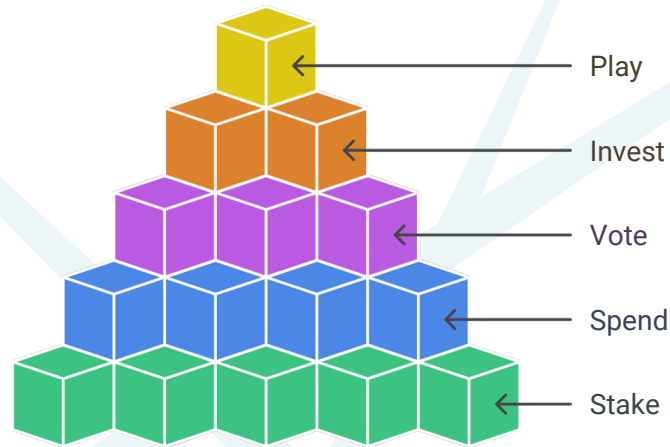

🧵 Vesting & Security
- Team Tokens: 12-month cliff, 36-month linear vesting
- ICO Phases:
  - Private Sale: 5% unlocked at TGE → 8-month vesting
  - Pre-sale: 10% unlocked → 6-month vesting
  - Public Sale: 20% unlocked → 3-month vesting
- Locked wallets viewable via blockchain explorer
- DAO treasury governed via smart contracts

🔄 Dual Token System
- $MOOKSY: Core governance & ecosystem token
- $MILK: Earned through staking & gameplay; used for utilities inside the game
  (burnable, inflation-controlled)

Which token to use for specific actions within the ecosystem?

Use $MOOKSY

ecosystem participation

Use $MILK

Best for in-game utilities
and earning rewards
